High Newton Ornamental Gardens

During the last few months there has been a team from the Probation Service Unpaid Work Team completing a project to tidy up the appearance of the gardens in return for a donation from the Parish Council. A lot of the overgrown shrubs have been given a good cut back and in the spring we hope to see a regenerated and much neater appearance to the gardens. The well area has also been cleaned and in the next month the well gate will be repainted. The path edgings are also to be replaced and the path straightened in places and the benches refurbished during October/November.

Highways Issues

The Parish Council is currently working closely with County Councillor Bill Wearing regarding a number of Highways issues relating to the Parish.
